The Elections.

The additional returns from Pennsylvania, Ohio, Indiana and Nebraska, settle beyond a question, that they have all gone Republican in their State elections, and will east their electoral votefor Grant and Colfax and Peace in November. In Pennsylvania the majority will not be less than 5,000, and will probably exceed 10,000. In Ohio the major ty stands, as announced at first, at about 25,000. The majority in Indiana is reduced to 2,500, and in Nebraska to about 22,000.

One Representative to Congress is lost in Pennsylvania, Leonard Myers, in the 3rd (Philadelphia) District, who is beaten by 91 m dority.

In Indiana, one District, the6th hereful; Holmon, (Democrat) is beaten in Bennington, Me.r.il of Reading, 1115- said to adhere to his profession? the fourth District, and should the 6th District prove to have gone Republican there will be a gain of one Represe 1 On Military Affairs. -Messrs. Grout tative in Indina. In Ohio, where our of Barton, Beattre of Brunswick, Howe of Jericho, Fletcher of Cavendish, Smith Representatives is the greatest. We lose the 1st, 6th, 7th, and 19th Districts, represented by E.gleston, Buckland, chester, Converse of Woodstock, Wates Shellabarger and Ashley. In the 2nd District, Sam Carey (Democrat) is defeated by Stevenson (Republican). Our feated by Stevenson (Republican). Our total losses in Representatives at the dolph, Dunn of Fairiax, Corey of Craftsworst is 6 and our gains 2. If this should be confirmed, it will not effect the grand result; the Democracy are beaten in the popular vote by States.

Last week-during the first days thereof-a Seymour and Blair organization known as the "Conservative Army and Navy Union" held a regular meeting, and the attendance of members was not so numerous as to promote a feeling of enthusiasm. Perhaps the institution had suffered somewhat from the loss of its gallant President-Col. Alabachformerly brigade commander in the 3rd division of the old 5th corps, and more recently the lessee and manager of the St. Charles Hotel, in this city. Possibly the keeper of the saloon on Pennsylvania Avenue, over which the "Union" held its sessions had commenced to solicit payment for the inspiration furnished by him ; and it is barely ; ossitle that the news from Connecticut, which figured in that d y-after-to-merrow paper, the Intelligencer, failed to receive the credit which it deserved, when it announced great Democratic gains; but, whatever the reason or reasons might be, the fact became apparent that there was a desire, as of old, among the few members present at that meeting, to let the "Union slide;" and the question of whether there should be another meeting was actually discussed. The decis.on arrived at was that there should be a special meeting on Saturday night, and persons were present, 9 of whom were Lamston, Ryan of Fairfield, spectators merely, and were requested Distributing Committee. — Messrs. spectator, merely, and were requested to withdraw. I have heard but three public expressions of voters in favor of Seymour and Blair in this city, though, of course. nearly half the voters are for those candidates. I regret to say, candidly, that the three who, at different times and ir separate places, announced such prefereuces, were inebriated to an extent that would of course be impossible under the prohibitory law. Two of these were in army blue, the other in alcoholic only. The latter gave a toast to his companions--"a melancholy toast," as he termed it, with a strange and surprising exactness. The toast was: "Here's ta ford, Woacester of Greensboro, Sem'r 'n Bla'r, 'n ta constoosh'n unhap-1y 'n 'stract'd country."

One of the respondents to this "black anger" toast was probably a descendant of Dickens' Bill Sikes. I should not like to meet him in a dark lane for fear pointment of the following : of the extra exercise it might require o me to preserve the "tenor of my

POLAND'S WHITE PINE COMPOUND .- After having given it a thorough trial we can confiden-tially recommend Poland's White Pine Compound as a very valuable article for the cure of colds, coughs, and pulmonic complaints generaly. In several cases we have known it to give prompt relief when all other remedies had been tried and failed. It is an article, which in a climate so promotive of sudden and severe colds as is that of New England, ought ery packed up and sent to this country. to be in every family; and we are sure that those who once obtain it and give it a fair triat, will not t ereafter be willing to be without it.

We find it stated that the library. although it may be produced from excessive ex-haustion of the powers of life, by laborious em-ployment, unwholesome air and food, profu e menstruation, the use of tea and coffee, and frequent chialbirth, it is far oftener caused by de-rect irritation, applied to the mineous membrane of the vagina itself.

When reviewing the causes of these distressing compaints, it is most painful to contem-prate the attendant evils consequent upon them. It is but simple justice to the subject to coun-crate a few of the many additional causes which It is but simple justice to the subject to enum-erate a few of the many additional causes which so largely affect the line, health, and impliness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mains trat exists for precocious education and murriage, causes the years that nature designed for corporeal development to be wasted and per-verted in the restraints of dress, the carly conthement of school, and especially in the un-healthy excitement of the oal-room. Thus, with the body hair-c othed, and the mind undoly excited b peasure, perceiting in mutuight revel the hours designed by nature for sleep and rest, the work of destruction is half accom-

In consequence of this early strain upon her system, unarcessaly effort is required by the acticate votary to retain her situation in school at a later day, tous aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionabidress, absorutery forbidding the exercise indis-pensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden enange of temperature; the complete prostration produced by excessive dancing, must, of necessity, produce their regi-timate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain distates and remonstrances of her descate mature, becomes an unwhing subject of medical treat-ment. This is but a truisful picture of the ex-perience of thousands of our young women. Long before the abinty to exercise the func-

tions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, it common with the female breast and hips, evid ently under the control of mental enotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive lead, long before pulsarity to natits which sap the very life of their victims ere na-ture has self-completed their development.
